## Heaviest Vote in Ten Years Indicated Here

### 2 Rushing Truman's Home Shot

### Civic Centre Fate Interest Runs High

#### President Inside When Armed Men Charge Residence

WASHINGTON, Nov. 1 (AP)—Two men with blazing German luger pistols rushed President Truman's home today in an apparent attempt to assassinate the president.

They were shot down in a furious gun battle outside. One was killed. Three members of the president's guard detail were wounded.

Truman was in the presidential residence, the Blair House, when the shooting occurred about 2:15 p.m. EST, a few minutes before he was to leave for a ceremony at Arlington National Cemetery.

Police Inspector Robert Francis told reporters, "I presume it was an attempt to assassinate the president."

Secret service men said the gunman who staged the wild, apparent assassination attempt, had German luger pistols.

One of the men was shot down on the steps of the temporary executive mansion.

He fell with blood spurting from a chest wound.

Reporters who followed sirens screaming police vehicles to the scene could see one man, in civilian clothes, crouched behind the small hedge adjoining Blair House.

Another wounded man, also in civilian clothes, lay with his head on the Blair House steps.

There were reports circulating through the crowd which quickly gathered that two men, one a policeman, had been killed.

As police pushed back the crowd and determined what had happened, Truman looked out the window for a moment.

Secret service men waved reporters back with the curt command "Stay away, stay away!" They then closed the window.

THE PRESIDENT WAS TO LEAVE HOME. The president was due to leave momentarily for Arlington National cemetery to participate in ceremonies dedicating a monument to the late Sir John Dill, Britain's wartime chief-of-staff.

Heaviest vote in 10 years appeared certain today as Edmonton voters awaited the polls to elect five city aldermen, decide the fate of the Detweiler civic centre project and pass judgment on 10 money bylaws.

Prediction of a record vote for recent civic elections was made by Chief Returning Officer George Docherty, following his tour of polling division this morning.

Just before press time Mr. Docherty said: "If the balloting rate of the morning is maintained in the afternoon 50 per cent of the electors will have cast ballots before the polls close."

He added that the rate of voting would likely, if anything, be stepped up in the afternoon and late evening.

The returning officer said that only 30 per cent of eligible electors voted in last year's civic elections.

There are 95,000 on the rolls. A feature of the morning vote was the high percentage of property owners casting ballots on the Detweiler Project and the 10 money bylaws.

There are 32,500 burgesses eligible to vote this year.

Mr. Docherty said only 24 per cent of electors voted in 1947, with voting sinking to 14 per cent of those eligible in 1945. In 1949 there was a 30 per cent turnout of electors.

In the war years voting was very high.

Voting was proceeding smoothly at all polling stations throughout the morning, city election officials reported. There were no incidents at any poll reported to city hall.

Police officials also reported everything peaceful and quiet on the voting front.

HIGHLIGHT FEATURE of today's civic voting is the fact that the Detweiler "See 'Miracle Mile'"

OVERSHADOWS OTHERS. Highlight feature of today's civic voting is the fact that the Detweiler "See 'Miracle Mile'"

Special telephone service has been arranged by returning Officer George Docherty for those seeking election information.

Five north side numbers and three South Side numbers will be available.

They are: 20181, 20201, 22201, 22579, 21617, 32306, 31153 and 32302.

CONDITION UNCHANGED. Dr. P. J. J. Phipps called on him at 9:50 a.m. and again at noon. After his second call, he told waiting reporters: "This condition is the same. There is no change."

THREE-YEAR-OLD Richard John Mottan of Brockton, Mass., consoles his pal Snapper, Toy Pinscher, after dog fell downstairs, breaking no less than three legs. Although it looks as if Richard hurt his foot, it is really crossed under his left leg. Large bandage is part of cast on Snapper's left leg.

AP Wirephoto.

### Early Bird Voter, Hospital Patients Mark Ballots

VOTING CHORES were over early for Thomas J. Hardwick, Victoria resident with property in Edmonton. Hardwick was first to cast ballots at poll No. 39 in City Market Building. He voted at 8:40 a.m., 10 minutes after polls opened. Market Building poll is situated in heart of Miracle Mile area. If City Centre project is approved old market building will be removed for new handsome structures.

DEMOCRACY WENT to aid of hospitalized voters today. Official poll workers carried ballot boxes to three large city hospitals and toured wards. Stan Quinn of 1215-90 street was one of first to mark ballot from his bed in Royal Alexandra hospital. Poll clerk Frank Lunn supervised voting and turned back as ballots were marked. Quinn is employed at city comptroller's office. More than 100 patients at Royal Alexandra were qualified to vote. Enthusiasm for voting was high among bedridden patients.

## Throng Hears Pope Proclaim First Dogma Since 1870

### 'TIS A WONDER HOW WAR WAS EVER WON

GRAND JUNCTION, Colo. (AP)—Five Grand Junction hunters aimed a herd of 17 deer approximately 35 yards away and started firing. "It sounded like a miniature Battle of the Bulge," said Walt Cox, one of the hunters. When the firing was over, all the deer ran away without a scratch.

Three of the five earned official rifleman badges in the armed forces.

## N.Y., Ontario Officials Discuss Civil Defence

NEW YORK, Nov. 1 (CP)—Informal talks on civil defence emergency action have been conducted by New York state, Ontario provincial and Toronto city officials, a spokesman for the New York state civil defence commission said today.

The spokesman, who declined to be named, quoted the Canadian officials as saying they were not planning for "real" planning of civil defence. The talks were held in a friendly informal level in close-together northeastern states and administrations, the spokesman emphasized Canadian provinces to provide aid in the event of an atomic attack or other emergency was being drafted.

In Toronto, provincial secretary Arthur Welsh confirmed that the talks had been held. He said division of cost is one of the main points under discussion. Canadian-U.S. co-operation on civil defence matters has been discussed chiefly on the federal level, he added.

(AP)—Gen. F. F. Worthington, Canadian civil defence co-ordinator, said in Ottawa that the two countries would be evolved through federal and not through provincial and state organizations.

INTER-STATE ACTION. Meanwhile it was learned that plans covering interstate action in the event of a bombing attack on the northeastern United States are being drawn here for presentation to a meeting of state representatives Nov. 18. Adjuncting Canadian provinces were expected to co-operate in the plan.

The spokesman for the New York commission, headed by Gen. Lucius D. Clay, quoted Toronto officials as saying they were waiting for provincial action, and provincial action was being waited for.

## '199 CLUB' STILL SEEKS HIGHER MEMBERSHIP

The "199 Club" was still seeking members today in its drive for \$20,000 for the Crippled Children's Fund.

Drive was started in connection with the Associated Canadian Travellers' bazaar here when outsiders learned last night of visitors in the bazaar meant less money for the crippled children.

Each member of club contributes \$10 to special fund.

## BIG STORES STAYING OPEN ON SATURDAY

Mayor Sid Parsons today asked Edmonton merchants to observe a half-holiday Saturday for the Eskimo-Blue Bombers game.

But Eaton's, the Bay, Woodward's, Johnstone Walker, and most other large stores said they will "definitely be open all day."

The mayor emphasized that he has no authority to proclaim a half-holiday for such an occasion, but has made the request in response to heavy pressure from a number of sources.

## Season For Big Game Open Until December 15

Big game hunters took to the woods today on the trail of deer, elk and bear.

The fact that a closed season has been placed on the hunting of moose is expected to reduce the number of hunters to some degree, provincial game branch officials said today.

Open season opened today for deer, elk and brown, black, cinnamon and grizzly bears.

Hunting will be permitted until Dec. 15 in the western and northern sections of Alberta, west of Highway No. 2 from the international border to Edmonton, and north of the North Saskatchewan river.

Hunters may shoot either one deer or one elk, and may also take one black bear, brown or cinnamon bear, and one grizzly bear.

Last year, hunters had a choice of shooting one deer, elk or moose, but severe winters and a decrease in the moose population had resulted in the moose season being closed.

Open season on hunting of mountain sheep and goats closed last night, said it was their last night.

Deaths Recorded Today. BRIGGS, Mrs. Lily. HEINE, Mrs. Ida. JOLIN, Douglas Archie. KRYWENCHUK, George. MCKAY, Miss Lois Bell. MORNEAU, Baby Vivian.

THOMSON, John Frederick.

## PRESENT TYPE OBSOLETE

## Atomic Power Makes Subs Wolves Instead of Spiders

By PAUL F. ELLIS. United Press Science Editor. NEW YORK, Nov. 1 (AP)—An atomic engineer indicated today that development of an atomic submarine is progressing and that the first model may cost about \$400,000.

The engineer, K. A. Kesselring, of the Knolls Atomic Power Laboratory, operated by General Electric at Schenectady for the U.S. Atomic Energy Commission, said that the atomic submarine will make obsolete the conventional type submarine of which the U.S. has 12.

Kesselring said the atomic submarine could cruise completely submerged, for periods limited only by the air requirements of the crew.

In fact, he said, the new submarines will have greater submerged speed than that on the surface.

"In addition," he said, "submerged underwater operation would be possible for extended periods—reckoned in days rather than in minutes."

And since the submerged speed could be enough to bring all surface vessels within its range, the submarine would become a wolf that could go after its prey, not, as in the past, a spider that must wait for its victim to approach."

Kesselring gave some idea about the power plant of the atomic submarine.

He said it would have an atomic reactor, or pile, which would generate high temperatures to produce heat, air with the heat being transferred from the fuel to a liquid metal in a closed loop pressure system. From there it would go to a boiler to make steam which in turn would drive steam turbines of shipyard type.

Thus an atomic submarine might go for extremely long periods of time without the need of re-fueling.

## German Rearming Brings Deadlock

### France Said Ordered To Yield In Stand Against Germany

WASHINGTON, Nov. 1.—(AP)—The United States has put its foot down and apparently left France knowing it must make some concessions in her unyielding attitude toward German rearmament before there can be agreement on a supreme command for Europe.

**HANDSOME BRUTE** is John Farbrink who won title of "World's Best-Looking Athlete" during weightlifting championships at Paris Palais de Chaillot. He's Mr. America.

## Hospital Plan At Calgary Said Ready

CALGARY, Oct. 31.—(CP)—Calgary's dollar-a-day "plus extra" hospitalization scheme goes into effect tomorrow.

While it will provide benefits, sooner or later to all citizens, non-ratepayers who are treated at the General Hospital in the next 60 days will find they are worse off. Reason is that up to Wednesday, a \$2 a day tribute was paid to all patients at the hospital. Under the plan it will be cut off, and non-ratepayers who purchase a contract ticket are not eligible for the benefits for 61 days.

Thus non-ratepayers entering the hospital between now and the end of the year, even if they purchase a contract ticket will be charged the full \$5.50 a day "plus extra." Until Wednesday, it was \$3.50 a day "plus extra."

In the new scheme, ratepayers, their dependents, and female help employed full time and receiving pay beyond board and room, are members of the plan automatically and do not have to apply to take part in it.

They will receive hospital care for \$1 a day and pay for "extra" which means services or facilities not ordinarily provided with general ward hospitalization.

## Plane Crash Kills Three In House

MEMPHIS, Tenn., Nov. 1.—(AP)—A small sports plane crashed into a group of houses near the city limits today, killing its three occupants.

Three homes were gutted by flames that spread when the plane

## Canada Ups Overseas Military Listening Posts

OTTAWA, Nov. 1.—(CP)—Canada is gradually expanding military listening posts abroad, in keeping with the defence expansion at home and the country's increasing international commitments.

The latest move in this field—one largely developed since the war—is appointment of a military attaché to Germany. But during the last few months the activities and movements of Canadian military men abroad has been often in the news.

Canada now maintains army and air attaches in 11 foreign countries inclusive of the United States and United Kingdom.

In Washington and London she has elaborate military missions carrying on the vital work of tying Canadian military policy in with that of her two major allies.

The emergence of the Atlantic Pact has awoken the Canadian military colonies in both capitals. In Japan, Canada recently established a liaison mission with Gen. MacArthur's headquarters to prepare the way for movement of Canadian troops to Korea.

**BERLIN MISSION**  
In Berlin, Canada still maintains a military mission and it is there that the new attaché to Germany, Col. J. M. Houghland, 34, of Brockville, Ont., will handle part of a dual job.

The other part will be that of military attaché to the Canadian mission at Bonn, capital of the West German Republic.

Canada maintains air attaches in Argentina, France, Sweden, Czechoslovakia, Yugoslavia, Belgium and Russia.

She has or soon will have army attaches in France, Germany, Italy, The Netherlands, Sweden, Yugoslavia, Turkey, and Russia, the

## Oil Possibility Delves In East

TORONTO, Nov. 1.—(CP)—The Ontario mines department is studying the results of drilling by a six-man crew at Flakushi Point on the west side of James Bay, 45 miles north of Montreal.

The department said the drilling is primarily to study the geological formations underlying the muskeg in the area, but that there is a remote possibility that there may be oil in the area.

## Rumsey Woman Hurt

OTTAWA, Nov. 1.—Mrs. Alex Rumsey, 52, was rushed to hospital after suffering injuries received when a brick, falling from a scaffold at her home in her own back yard, struck her on the head, knocking her unconscious.

## THREE PROVINCES

### UIC Claims Show Drop Over September, 1949

OTTAWA, Nov. 1.—(CP)—Claims for unemployment insurance benefits filed in September dropped to 49,259 from 51,363 in the same month of last year.

Decreases in Quebec, Ontario and British Columbia more than offset increases in the other provinces, the Bureau of Statistics reported today.

Claims in Quebec fell from 15,676 to 15,463, in Ontario from 14,760 to 13,857 and in British Columbia from 8,847 to 7,907.

The figures for the other provinces, with those in the previous month in brackets:

Nova Scotia, 3,408 (3,418); Newfoundland, 323 (327); Prince Edward Island, 202 (191); New Brunswick, 2,596 (2,583); Manitoba, 2,196 (2,120); Alberta, 2,161 (2,039); Saskatchewan, 1,004 (745).

Payments during September out of the unemployment insurance fund were \$3,845,797, covering 1,633,140 days. This compared with \$3,871,715 for 1,613,161 unemployed days in September, 1949.

## Revolt Collapses In Puerto Rico

SAN JUAN, Puerto Rico, Nov. 1.—(UP)—The 48-hour revolt by anti-American Nationalists seeking independence for Puerto Rico collapsed today.

Officials said 40 persons were killed, 34 wounded and that only mop-up operations by police and national guardsmen remained.

The last two rebel strongholds—Jayuya and Utuado—were subdued by 400 guardsmen who sent the rebels into retreat from the towns with machine size and rifle fire.

Eighteen rebels, including nationalist leader Elio Torresola, were captured in Jayuya, a mountain town in the centre of the island.

## 65 HARVARDS READIED FOR ENLARGER FORCE

CALGARY, Alta., Nov. 1.—(UP)—Some 65 Harvard training planes stored here and at Weyburn, Sask., were being taken out of storage and readied for use by pilots of the enlarged air force, RCAF officials revealed today.

The operation of taking the aircraft out of mothballs began last month, RCAF officials said, and 40 of the planes had already been flown to St. Jean, Que., for overhauling and modifications.

It was believed that the aircraft would be used at the new jet flying training school at Guelph, Ont., which was to be opened in January, 1951.

Air force officials said that 31 of

## Aussie Praises Canada's Role

MONTREAL, Nov. 1.—(CP)—Percy Spender, Australian minister of external affairs, last night praised Canada's "remarkable contribution" to peace and security through the North Atlantic Treaty.

En route from New York to Ottawa, he said: "It all hinges on the up to their international responsibilities as Canada does the world would be a much better place."

The Harvards were stored at No. 10 repair depot here, the rest at Weyburn.

# Canadian Steel Situation 'Grim'

Ottawa Sees Greatest Scarcity In Sheet Steel

OTTAWA, Nov. 1.—(CP)—The Canadian steel situation is "grim," a government expert said today. Through Canadian producers are co-operative to the "fullest extent" in the supply of steel for defence orders, there is not enough to go around, he said.

The greatest scarcity is in sheet steel, badly needed in the development of Canada's \$70,000,000 ship-building program for defence. Most of the problem, said the expert, is in obtaining sufficient supplies from the United States, using more and more steel for defence projects. There is some prospect of an increased supply from the U.S. once joint industrial mobilization planning gets rolling in high gear, but that will take many months. Meanwhile, defence projects in Canada are being slowed because of a lack of steel. It was not all Canada's fault, said the expert. This year, Canadian producers will manufacture about 3,250,000 tons—the highest in history.

LESS FROM U.S. Normally, Canada produces about 3,000,000 tons and gets another 1,000,000 tons from the U.S. This year, the U.S. may not supply more than 775,000 tons. Canada, said the expert, can use double that amount. Under the "equality of sacrifice" principle which will guide Canada's defence production planning, international priority ratings will be instituted which will apply equally to Canadian and American defence manufacturers. A scale of DO (defence order) ratings was worked out during the weekend among Canadian trade officials. Canada's ideas on the scale of ratings were transmitted to Washington Monday. Further action may be necessary before the scale becomes acceptable to both countries.

VOLUNTARY RATION Non-essential Canadian producers are voluntarily rationing steel for civilian use. Under this rationing system, defence programs get top priority.

There is the prospect of another big furnace for the production of steel opening in Hamilton, Ont., next July. However, by that time the outlook is for a growing shortage of steel scrap. The new furnace likely will produce only sufficient new steel to cover unavailable scrap.

## Charlotte Whitton Up For Election

OTTAWA, Nov. 1.—(CP)—Dr. Charlotte Whitton, well-known welfare worker, speaker and writer, will run for Ottawa board of control in the forthcoming Ottawa civic elections, Dec. 4. It elected, the 64-year-old native of Newell, Ont., will be the first woman controller in capital city history.

Dr. Whitton agreed to run for office today, but only after receiving full assurance that a woman's campaign committee will be working for her in the 28 days between now and election day.

## Peace Congress Plans Drafted

LONDON, Nov. 1.—(Reuters)—Final plans for the Communist-backed World Peace Congress at Sheffield starting Nov. 21, were drafted at a meeting in Prague during the weekend. British delegates said. Organization of congress proceedings shifted to Prague after the British government banned foreign members of the world peace movement executive from meeting in London for preliminary planning.

## Kendall Honored For Cortisone Find

OTTAWA, Nov. 1.—(CP)—Dr. E. C. Kendall of the Mayo Clinic at Rochester Minn., yesterday was presented with the medal of honor of the Canadian Pharmaceutical Manufacturers association. He was honored for the discovery of cortisone, used in the treatment of rheumatic and arthritic diseases.

A Netherlands establishment has started production of cortisone tablets for export.

EDMONTON BULLETIN, Wednesday, Nov. 1, 1950

## Exports To U.S. Set All-Time Monthly Mark

OTTAWA, Nov. 1.—(BUP)—Canadian exports to the United States in September reached the highest monthly value in the history of Canadian-United States trade, the Bureau of Statistics said today.

Gains were made in all nine main commodity groups. Total exports for the month were \$192,790,000, up from \$187,100,000 in August, and nearly 70 percent higher than September last year. DBS said there was a marked advance also in exports to Latin America and small increases to Europe and Commonwealth countries in Oceania.

Value of shipments to the United Kingdom and other Commonwealth

1950 was \$143,085,000—40 per cent

enough to offset the gains. The bureau said the high volume of exports during September "may be due to some extent to the movement of shipments delayed by the nine-day '7' strike in late August."

UP 40 PER CENT

The cumulative total of Canadian exports for the first nine months of 1950 was \$1,433,085,000—40 per cent

more than the same period in 1949.

Exports to the United States for the first nine months of 1950 were \$1,433,085,000—40 per cent

more than the same period in 1949.

Exports to the United States for the first nine months of 1950 were \$1,433,085,000—40 per cent

more than the same period in 1949.

74¢ vs \$1,024,304,000 recorded a year earlier.

Shipments to the United States in the first three quarters of the year accounted for 69 per cent of all exports. Last year, the comparable figure was 68 per cent. DBS said the largest increase in the month in exports to the United States was in the wood and paper group, which rose from \$33,676,000 to \$100,608,000. This was "much the highest monthly level ever reached," the bureau said.

A cow at three years of age should have three pairs of broad teeth with corner permanent teeth just appearing.

Portrait of a Man Talking to Himself at the ACT Caspelli Great way to help such a worthy cause as a crippled child's fund. If most of these curlers aren't doing what comes naturally—getting a bang out of it into the bargain—you could rest easy.

Lots of different styles when it comes to delivering a rock. Like Jimmy Guy over there. Seems like he'll never let go. Slides almost out to the hog, releases the stone, then sprays to one side, right foot extended ahead of the left, like a baserunner doing a hook slide.

They say Guy is quite a shotmaker, pressure of carapels or not. Still he blew both his rocks at the last end against Veri Mowbray. And it cost him the ball game.

But then who doesn't blow one once in awhile? Take yourself Mohr. You haven't topped a good but not potted a winner since the Canadian Amateur Hockey Association turned 25—amateur. And that wasn't yesterday.

Good fellow, Billy Rose. Very popular. Too much for his own good, maybe. Might win offense if he took the game more seriously. Still he's won his share of honors, including the Canadian championship. They'll never take that away from him. He was a pretty good athlete. Played hockey and baseball.

Curlers certainly go in for colors these times. Take that Allan rank from Olds. They wear bright crimson aviators. Can see them coming a mile off. Lots of blue and reds around, too. Guess a guy should have his sunglasses along.

Let's see who's in the gallery. That's Glenn Gray over there. Plays a lot of good golf when he can keep the ball straight off the tee, or when he isn't curling.

There's Buzz Jones and Hube Gooder, from Olds. They used to play hockey together around Calgary. Jones could fly. Gooder was more the stickhandler, the playmaker type.

Must take another look at the fellow just shooting over at that other sheet. Man does he ever hang onto that rock a long time. Seems like he can't get it to let go. Someone says his name is Tim Miller, that he's with the Brown rink from Gleichen.

That reminds me. Arden Brown thinks the Granite rink picks its shareholders for their good looks, not their curling ability.

Of course Brown's a shareholder in the Edmonton rink, which might explain. Members of the Granite and Edmonton respect each other, alright. But there's some jealousy there too.

Funny that the Granite and Edmonton should have beaten the other city clubs to the punch in getting artificial ice installed. For years the Royal took the lead in just going on anything. Now there are those who say the Royals never win the city championship again until the club gets artificial ice. Certainly, it lengthens the season for those who have it.

What's all this got to do with the carpsel, Mohr? Get back on the beam. Either you're executive this or you aren't. Leo Johnson beats Cliff Manahan in 13 ends at the Granite and you're watching the games at the Edmonton rink.

That's how papers get scooped, peahed.

Bet that's Cherry Reid sitting over there. Like some of the other oldtimers taking it all in from behind the glass, he was born here. He was in the Granite in the 1920s. Wonder what happened to the leather knee pad he always wore?

Plenty of Royal Canadian Curling Club crests in evidence. There's one over there—ROCC—you can catch the letters from here.

Quite a story in the Robinsons from Jasper. Papa Bill generally skips the rink, three of his boys handle the other positions. Mom frequently looks on. She curls too, is their bench, a case of injury or illness.

Last year "Brenda" Amour wore the cars at this 'spiel. Now he's in the No. 3 Event, after two losses, and straining all the way to make the round robin. That goes double for Cliff Manahan.

Whoa like a guy's press clippings don't count for anything in curling.

## FORREST WINNER IN MALLARD CONTEST

Larry Forrest, 11438-65 street, won the last week's prize in the Bulletin-Northern Hardware sponsored Big Mallard Contest. His specimen, weighing three pounds, 10 ounces, led a field of more than 30 entries.

Forrest won himself two boxes of shells as a result and qualifies for a crack at the grand prize—a complete fishing outfit.

The contest will run for two weeks. Entries are to be weighed at the Northern Hardware building, located at 101 street and Jasper.

## Grid Ducats At Premium

TORONTO, Nov. 1.—(CP)—Football fans who made unsuccessful bids for Grey Cup tickets will hear the news within 10 days.

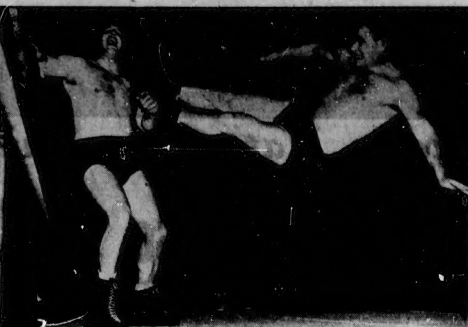

By then, secretary Percy Robinson of the Canadian Rugby Union said last night, he expects a group of ticket-holders will have figured out one of the 5,000 letters writers will get in the 125 double tickets the C.R.U. has available for the football classic.

Normally, the C.R.U.'s share of the Grey Cup tickets is sold to agencies. This year the C.R.U. is distributing the tickets itself and has some 1,200 tickets available. It offered two tickets each on a first-come first-served basis.

Each of the letters represented in the final will get 50 per cent of the 2,000-odd seats in the enlarged Varsity stadium. Another 10 per cent goes to the team, which was runner-up in the eastern final and the C.R.U. gets the rest.

## Boots 'Em Home

BAY MEADOWS, Calif., Nov. 1.—(AP)—While Bloomer, the Bay-area locker from St. Paul, Tex., yesterday booted home his 300th winner of the year in the sixth race at Bay Meadows.

**DROP-KICKING** Montreal villain Paul Lortie against rope is popular grapple for referee Lefty Pacer after both razzlers had secured a fall. Victory for Lortie avenged brother Bob's injury suffered recently at hands of Gob.

## SAME OLD ACT

### Ref Hams Up Rasslin' Plot

By Ernie Fedoruk

Using routine number seven (or is it eight?) Steve Gob lost the main event of last night's rassling card at the Stock Pavilion to Paul Lortie.

Gob and Lortie each struggled to grab one fall before Lefty Pacer, referee for the evening, stepped in to disqualify the overzealous Gob.

Ivan Kamanoff and Al Korman copped two straight falls over the Tony Coenra-Dan Kindred duo to win the Saturday tag team semi-final match.

All they took on the much-improved left's what the man said Dave Ruhl in the special event. However, Ruhl still needs to be improved, losing to Ray at 7:55 in the one-fall event.

In the main grun-and-gran session, Gob copped the opener at 8:00, using a "rolling cradle" (somewhat) hold. You figure it out. Lortie came right back to even the count at 7:45 with a Boston Crab hold.

Gob went after Lortie at the sound of the bell and promptly threw his opponent out of the ring. Seemingly very angry, he, turned on Pacer, who up to this point proved to be quite "pro-Gob".

Local bookies are giving 15-2 odds in favor of Lortie to win the main event. The odds are expected to change.

## CONCERNS EDMUNDSON, McDONALD

### Dr. Hardy Denies Frank Selke's Charge

Dr. W. G. Hardy, president of the International Ice Hockey Federation, said last night he had not refused to allow Alberta junior hockey players permission to play with Regina.

He was commenting on a Montreal report which said that Frank Selke, managing director of the Montreal Canadiens, blamed Dr. Hardy for an "edge" which prevented Duke Edmundson and Jack McDonald joining the Regina Pats of the Western Canada Junior Hockey League.

"Selke is unfortunately misinformed," Dr. Hardy said. "In the first place, this question has nothing to do with the International Ice Hockey Federation. And in the second place, the 'edge' was not issued by me nor by anyone so far as I know."

"As I understand it, the story had its beginning last summer when the Regina Pats and their hockey club agreed to form and put their players at the disposal of a new professional club, now known as the Edmonton Oil Kings.

"This move was sanctioned by the Alberta Amateur Hockey Association, of which I am one of 10 members, and came under Canadian Amateur Hockey Association regulations. The players against these regulations did not play for Regina without a release from the club which holds their cards as well as a branch-to-branch transfer."

Manager Ernie Smilgan, commenting on Selke's statements, said that Oil Kings felt justified in suspending McDonald and Edmundson. "We signed interest in only two or three players, and released the rest. We want the best hockey players and not the leftovers."

Smilgan continued: "Why should we bring up some good players here and then let them go to Saskatchewan. Saskatchewan has enough of its own juniors."

"Selke put the pressure on RAC."

## Edmonton Defies League On Time of First Game

By Dick Biddoes

Edmonton Eskimo officials were still defying Western Football Conference today over the time of the first game in the best-of-three final.

This contest is billed for Clarke Stadium sometime Saturday, with the second game scheduled for Wednesday at 7:30 p.m. at Winnipeg's Osborne Stadium on Nov. 11.

The Edmontonians want to play Saturday at 4 p.m. in order to accommodate their many fans who normally have to work on Saturday afternoon. But the Bombers desire it to be an afternoon fixture so that they can head back home that night, thus saving hotel expenses.

And yesterday, in a telephone vote conducted by league secretary Bob Gillies of Regina, it was decided that the game should start at 2 p.m. Those polled were Ralph McInerney, president of the Bombers; Fred Wilson, Regina Roughriders executive; and Tom Brooks, manager of the Calgary Stampeders.

All favored a daylight contest. The Eskimos, according to manager Al Anderson, were not asked to vote.

## WILL PROTEST

Anderson had indicated earlier that he would protest the opening game if it was played at night. He said that he had no intention of calling for playoff games to start at 2:30 p.m. and that Winnipeg wanted Edmonton to "honour the rules."

This point is not covered in the league constitution, but Anderson has refused to accept the result of the telephone vote.

Said he "We want a wire to go that we have in writing the names of the men who are dictating what time our home games should be played. When we travel to other centres, we play at any hour the home club schedules. For example, in Regina this year we played three games at different times—2 p.m., 2:30 p.m. and 5:10 p.m. And on our first trip to Winnipeg we went to no end of trouble to fly there in plenty of time because of the railroad strike. Therefore, we should be allowed to schedule our home games at the hour we desire."

Just how far the Eskimo defiance of the league ruling would go was a moot point at press time. President Walter Sprague, presently gone hunting in the Provost area, could not be reached for comment.

## ESKS STAMP PAT

But Anderson was standing pat, "our advertisement for the game to start at 8 o'clock have gone out and I don't plan to change it. Our fans are educated to night football and it would be doing them an injustice to play at any other time."

Meanwhile, Gillies also announced the officials for Saturday's skirmish. They are: Howie Mink, Weyburn, Sask., referee; Paul Dojcek, Regina, umpire; Charlie Harrison, Calgary, judge of play.

## on the TOWN...

By Jack DeLong

### Election Day Daze

Election prediction: Seven defeated aldermanic candidates will tonight announce they will abide by the decision of the people. (What else could they do about it?)

**Meanest Halloween trick.** When some "joker" gave a party of three-year-olds a bag filled with raw potatoes, near 100 street and 81 avenue last night. South Side reader Mrs. F. E. Hoople reported this little meany.

A kind-hearted Edmonton couple dropped in to seek help for a family that has had some pretty bad luck. Here's the story: A 35-year-old oilworker was badly hurt in a car accident more than six months ago. Just when he was on the way to recovery he was in another accident. He had a mending broken arm fractured again—in three places this time.

The oilworker has a wife and three small children. These are staying with friends. The injured man is still out of town but has to come to Edmonton two or three times a week for medical treatment.

He is now without funds.

The Provincial Government has agreed to pay the injured man \$300 a month for rent plus cost of utilities.

**Oilworker isn't fussy** about what he gets. He'll take the first place offered within the financial limitations set forth, for himself and his family.

Now this looks to me like a genuine case of misfortune. If there's a reader or two who could help this family, please get in touch with On The Town right away. I can give further particulars.

**City has driver H.** Rhein of 11316-124 street rates an orchid for a lightning swerve to miss a tiny Halloween "ghost." This occurred last night at 7 and 95 street and 191 avenue.

Orchid reporter: Don Hughes of 9338 Jasper avenue.

Now here's a real big orchid for Flyers hockey coach Frank Currie. It's for "smacking" of the special train from Regina last Sunday morning with his high flying Flyers just to make sure Eskimo grid warriors would get all the glory they deserve.

**Fred Cowan** from the Mac hotel gave me this Halloween item. Proprietor of drug store at 97 street and 103 avenue beat the store nuisance problem last night. Had a clown outside with an ice cream wagon. Wagon did terrific business. No kids pestered clerks inside store. Think I'll give that thoughtful drug store man an orchid.

**Drumsticks** in the lexicon item. Here goes a hearty thank you very much to good sport and good shot P. A. Giroux of McLennan. Hungarians were delicious.

My stomach's singing I know where the will' goose goes.

A tender goodnight to all and especially to election candidates who lose their seats.

## Jaywalking Citizen To Be Let Loose Nov. 25

A pedestrian who does everything a good pedestrian shouldn't do will have the wholehearted support of the Edmonton Safety Council this month.

This citizen will be known as the "jaybird" and he will be out to shock Edmonton pedestrians with his horrible antics of the "jaybird" during "Pedestrian Safety Week," sponsored by the Council, Nov. 25 to Dec. 2.

### WILL IGNORE LAWS

The "jaybird" will take long leaps off the sidewalk at traffic lights, cross the street in the middle of the block and occasionally saunter across the street in defiance of the law. If he can think of anything else he shouldn't do, he'll do it.

If he can't think of anything else, he'll get called a "jaybird" for acting like one during "Pedestrian Safety Week," that's just fine with the Safety Council.

Last night, the Council's Traffic Committee completed its plans for the special week and referred them to committees to work out the details.

### OTHER CITIES

The Council hopes to have the week officially proclaimed by the government as it is expected that the "jaybird" will be a success. Plans are being laid to have Lt. Governor J. J. Bowen officiate at the opening ceremony.

## HOTEL PARTY THEFT BRINGS JAIL TERM

Muriel Welsh, Saskatoon, was arrested for three months in prison for the theft of \$270 cash and a \$25.50 cheque last night.

The theft took place in a South Side hotel room where the accused woman and two men were having a party.

Mrs. Welsh, 1969, 91 street, told the court that she put his wallet containing the cash and cheque under the mattress of one of the beds and fell asleep. He said he awoke to find the accused withdrawing the wallet from the mattress.

He testified she and the other girl then went into the bathroom together. The wallet was later recovered.

## City Has Safe, Sane Halloween

### Youth in High Sports But Little Damage Is Reported

Edmonton enjoyed a safe and sane Halloween last night.

Except for three cases of youths singing at street lights with BB guns, Edmonton's youth backed on Chief of Police Rev. Jennings' statement that "vandalism is on the decline in the city."

The majority of the calls were Halloween's high jinks and acts of violence were a minimum. During the early hours of the evening, the police switchboard was jammed with calls of a minor nature. No false alarms were reported.

### GANGS DISPERSED

Police said cars were on duty at 8 p.m.—two hours early—and were easily able to cope with a flood of calls early in the evening. Several gangs of 15 to 25 youths were dispersed in the West End and in the South Side, and five instances of broken windows were reported to police.

Traffic on the Fifth street bridge was held up for a few minutes when a teen-age gang straddled the bridge approach with a horse cart pulled from nearby.

One woman in the West End complained to police that boys painted her front door red.

Police suggested a wash and turpentine as a possible solution to her trouble.

The majority of the reports concerned overturned stop signs, shooting at street lights with BB guns and pushing parked autos into the middle of the street.

Four men in a light pickup truck were spotted sauntering at street lights with a 22 rifle on the South Side but were not caught. Five pots on a city engineering project on the Stony Plain road were smashed and several instances of overturned stop signs in the Calder district were reported.

Community clubs, seeking to combat the waves of Halloween vandalism in other Canadian cities, staged 15 dances throughout the city for teenagers and children.

'B-A-A! WHAT'S GOING ON?'

LAST-MINUTE beauty treatment is given by Garth Bunker, Tawitawit, Alta., to protesting lamb entered in the Fall Livestock Show and Sales at the exhibition grounds. Show continues today until Friday. A total of 815 ewes, sheep and cattle have been entered by 61 exhibitors.

## Jr. Farmers In Spotlight At Fall Livestock Show

### SQUATTER'S RIGHTS CLAIM IS UPHELD

CALGARY, Nov. 1.—(CP)—Squatter's rights entitle Boyd Douglas Johnson to ownership of the Calgary home he has lived in since Aug. 31, 1938, although he has paid no rent since July, 1939, the Supreme Court ruled yesterday.

Olaf Olson of Burnaby, B.C., claimed he has been registered owner of the property since 1916.

The court ruled that Olson's right to assert title to his property was "extinguished" because he did not dispute Johnson's claim in the 10-year period between Aug. 31, 1938 and Aug. 31, 1948.

## Alaska Road Slippery Motorists Are Warned

Snowfalls caused slippery conditions along the Alaska highway this week.

The Alberta Motor Association warns that caution must be used by motorists between Dawson City and Whitehorse due to icy and snow conditions. The stretch from Whitehorse to the Alaska border is dry, according to the Alberta Motor Association, but is slippery beyond.

One-way bridges are being used at miles 296 and 112. The road is particularly narrow at Muncie Lake, mile 428 to 432.

With the withdrawal of road maintenance crews from the Haines cutoff, the early closing of that road is expected, but with it and the Alton cutoff, which closes during the winter months, are still open though the Alton route is manned by frequent snow storms.

William Perry, 12135-86, was sentenced to seven days jail when he pleaded guilty to driving while intoxicated. Perry, 38, of 113 street, was charged with driving while intoxicated on Oct. 17, when he was in collision with a northbound car at 113 avenue.

**Rec Meeting**  
The regular meeting of the recreation commission will be held in the offices of the superintendent tomorrow at 8 p.m.

**N. Edmonton Meet**  
A meeting of the North Edmonton community league will be held today at 8 p.m. in the league's hall. An election of officers will take place.

## HISTORY OF HATS

### Prestige of Mighty Male Varies With Size of Hat

If you want to wear the pants in the family, you've got to wear a hat and it better be a big one.

That's the opinion of Henry Singer, Edmonton clubber, who has been delaying into sartorial history.

"The prestige of the male sex has varied directly with the size of the hats they wore," pontificated Singer.

"In the old days, men wore tall hats, and their word was law. Today, they often wear no hats at all, and that's how much respect

## New Type Institution For Youth

### Work On Borstal-Like Institute Starts Soon

Construction of the first new type penal institution for youthful offenders in Alberta will begin immediately.

The institution will be built on the grounds of the former air force station about three and a half miles north of the town of Bowden. An airforce hangar is now being converted into administration offices.

**TO COST \$315,000**  
Hon. Lucien Maynard, attorney general confirmed that excavation work on the institute will begin immediately. An amount of \$115,000 for the institution was provided in the last provincial budget. It is expected that about \$200,000 will be the construction cost of the building, and the remainder will be spent acquiring and improving grounds.

**BORSTAL SYSTEM**  
When he announced the government's plans to establish the institution for youthful offenders, several months ago Mr. Maynard said the project will be "as near the Borstal system for rehabilitation of youthful criminals as can be instituted here."

The institution will provide for segregation and rehabilitation of youthful offenders who will be given special training in useful trades.

**ASSURANCE**  
N. F. Tanner, Alberta mines minister, said after the conference that trade minister Huser had assured the delegation the government was prepared to meet the needs of the western coal producers of Alberta and British Columbia in calling for measures to preserve Alberta's coal market in new South Africa.

Mr. Tanner said the discussion centred largely around a freight-increase for the railways to effect Ontario haul on coal, which the railways intend to put into effect.

He said the delegation raised the question of whether it was necessary for the railways to effect that increase and, if it were necessary, whether the federal government could grant a corresponding increase in the freight allowance on eastbound coal from the west.

## Freed Of Burglary Tool Accusation

Edward Pormose and Harvey Casman, charged with possession of burglary tools, were discharged yesterday when the Crown entered a plea of proceeding against their case.

The action, entered in Supreme Court by Prosecutor J. W. Shortreed, freed the two accused unless the Crown elects to proceed with their cases on the basis of further evidence.

Casman, defended by Frank Dunsmuir, had been in jail since his arrest last July 2. Pormose had been out on bail.

**Shriners' Meet**  
Members of the Edmonton Shrine Club will entertain a luncheon of 1951 term at a regular meeting on Thursday at 6:30 p.m. at the Edmonton Club.

**Shriners' Meet**  
Members of the Edmonton Shrine Club will entertain a luncheon of 1951 term at a regular meeting on Thursday at 6:30 p.m. at the Edmonton Club.

## Borden Park Playfield Development Is Urged

A plan to develop 371,250 square feet of Borden Park as a playground will be presented to the city by the Recreation Commission.

The chairman of Jack Heilly, Recreation Supervisor, said the plan would involve construction of four tennis courts, a horseshoe court, a football diamond and a bicycle track. They would be located in the southeast corner of the park.

**BIKE TRACK**  
The plan was brought last night before the traffic committee of the Edmonton Safety Council, which for some time has urged the building of a bicycle track to teach the city's youth the essentials of safe and skillful cycling.

The track, proposed by the Recreation Commission, would be 30 by 100 feet. Traffic committee members will report on the plan.
